

Novatus Goes Live with SaaS Hosting Solution

Orlando, Fla.; February 5, 2009 — Novatus announced their Go Live for the Novatus Contracts SaaS solution. Novatus understands the importance of delivering technology that meets their customers business and technology requirements. The Novatus Contracts Software-as-a-Service ("SaaS") solution provides on-demand, immediate startup, rapid deployment, cost predictability, streamlined upgrades with the highest level of security. After a thorough selection process, Novatus is pleased to announce DataSite Orlando as our SaaS Hosting facility provider.

Novatus selected DataSite Orlando, a 130,000 square foot, world-class data center facility offering the latest physical and technical solutions. DataSite provides multiple uninterruptable power systems, 24-hour security and surveillance, biometrically-controlled access, advanced water-cooling capabilities, and more.

DataSite Orlando's purpose-built facility uses the latest in backup infrastructure and technology and will provide our clients with the peace of mind that their mission critical systems will remain accessible and secure at all times," said Bob Gambotz, Chief Operating Officer at Novatus, Inc.

"We are very pleased to have Novatus at DataSite Orlando," said Rob Wilson, Director of Sales and Marketing for DataSite Orlando. "Our state-of-the-art facility will offer Novatus an unparalleled level of security, redundancy and reliability – characteristics that allow them to focus on providing service to their clients."
